From the Headmaster

11th June 2010

Mr. Tim Cornish
Managing Director
North Construction & Building Pty. Ltd.
2/369 Mann Street
GOSFORD NSW 2250

Dear Tim,

I am writing to thank you and your team for the wonderful job that you did in the construction of our new library and lecture theatre. I have of course, as a long term Central Coast resident, been well aware of the reputation that North have for quality work and client relationships, but this is the first time that I have had the opportunity to work closely with your company.

I must say that of all of the large construction challenges that I have been involved in in the last fifteen years, and these have included the construction of Tumbi High School, Narara Valley High School, re-development of The Entrance Public School and many more, the smoothness with which the project progressed at Central Coast Grammar School was the most impressive that I have experienced.

The particular trials with construction on a very limited site in a central location on the school grounds while the school was in normal operation presented special challenges. I had anticipated that from time to time there would have been some degree of tension between school staff and contractors. None of this eventuated and this was largely due to the parameters you set for your team and their experience in working in this sort of environment. At no time did the very close proximity of workers to young students and staff present even a single issue. This is very much to the credit of you, your staff and your contractors, and is very much appreciated by myself and the school staff.

We also appreciated your regular and open communication, not only when things were on schedule, but also when there were challenges with construction as there are of course on any job. We are as a school community absolutely delighted with the quality of the finished product and we think this will be a great and ongoing asset for Central Coast Grammar School.

At any time I would be happy to recommend your services as highly professional, client focussed with a very good capacity to work with project managers and architects for a superb outcome. I wish you every success for the future and I look forward to seeing you at the official opening of the new building. Thanks again.

Yours sincerely,

Bill Low
Headmaster
