To Whom It May Concern:

In recent times Greyhound Racing NSW has engaged North Constructions on two major projects. Firstly a \$650,000 construction job to create an indoor viewing lounge at the Gosford track and secondly a \$2.5 million refurbishment of the grandstand at Wentworth Park greyhound track. In the Gosford project North's greatly exceeded my expectations in terms of their performance. Knowing their capability I had an increased expectation for the Wentworth Park job, but again they exceeded all of my hopes by completing a logistically difficult task, in the extremely short time period available, to the highest quality. All whilst the site remained in operation as a racing venue.

The strength of North's is its people. The open, honest and inclusive approach, from Managing Director level down, gave me – as the client – the utmost confidence that the job would be completed as per their plan. Their Project Managers and Site Foremen go out of their way to accommodate requests whilst also providing very thorough and transparent regular reports throughout the job. Everyone at the company is highly professional, accessible and focused on achieving the best result for the client. For Greyhound Racing NSW North's have made two difficult tasks look easy and I can not commend them highly enough.
