To Whom It May Concern

North Construction has done a fabulous job building our Information Resource Centre. This \$2,000,000 building is situated at the front of the College and is now a signature building for our College.

Throughout the process we appreciated the professionalism of the Company. Regular site meetings kept us informed as to the progress and gave us ample opportunity to make any requests or amendments. North Construction Management Team was very considerate of both our budget restraints and the priorities of the college in any building decisions that they made. They were readily available in between meetings for any additional consultations and explained things clearly. Regular written reports were provided which were clearly explained and the building progress and time-line was carefully planned.

Within a school setting, the behaviour and demeanour of the workers was a significant issue. The Site Foreman, Sean Ryan, ran a tight ship. We had no complaints about language or behaviour and one minor issue was raised which was dealt with swiftly and discretely. Sean's duty of Care was excellent and the atmosphere he maintained on the worksite was focussed, industrious and calm. Sean was at all times polite and friendly to the staff at the college and he was very patient with the increasing number of 'hard hat tours' as the work progressed. Sean showed attention to detail and always made sure that the site was secure and left in order. On completion the area was left neat and tidy and the tour for handover was informative and professional.

I would recommend North Construction without hesitation as a company of quality and integrity.

Yours faithfully,

Mrs Michelle Kelly
Principal
